

MESSY CHURCH IS...

A way of being church for all ages. We are Christ-centered, creative, welcoming, and intergenerational as we celebrate God together. This is church - but not how you know it! Messy Church is found all over the world and focuses on welcoming people into the messy, grace-filled family of God.

MESSY PATHWAYS

The Messy Pathway program is designed to support Judicatory & Diocesan denominational leaders to nurture the growth of Messy Churches. Messy Pathways is based on four reinforcing components that can be specifically tailored to meet the overall goals of the sponsoring organization. These four components consist of TRAINING, COACHING, NETWORKING, AND LOGO/MESSY RESOURCES.

MESSY CHURCH USA

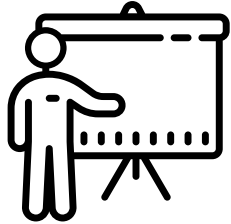

Messy Church USA is the home for the global Messy Church movement in the United States. We are connected with Messy Churches around the world but specifically work within the US to help start, sustain, and connect Messy Churches.

MESSY PATHWAYS

The four reinforcing components of our Messy Pathway work together to provide a strong start to a cohort of Messy Churches. These components include:

TRAINING

The one-day **Get Started** with Messy Church training provides the basics for your cohort of churches to start local Messy Churches with confidence. Following the Get Started training, live on-line 60 minute **Messy Pathway Webinars** provide guidance as your cohort of Messy Churches move from start to sustainable growth.

NETWORKING

Connecting with other Messy Church leaders is vital for successful Messy Churches. Our three level Messy Church USA network includes access to the website directory. In addition, the network gives leaders the opportunity to share best practices, explore innovative ideas, learn from Messy Ambassadors and be supported by our Prayer and Encouragement Team.

COACHING

Cohort teleconference coaching helps leaders develop and learn from one another. Group coaching led by an experienced Messy Church leader builds connection between leaders from your area. Coaching helps build resilience and sustainability within their local Messy Churches.

LOGO & MESSY RESOURCES

As Messy Church has grown around the world, the logo has been instrumental in communicating a welcoming space for people of all ages. In addition, there are wonderful Messy Church resources produced in the USA and throughout the world. When registered with Messy Church USA, churches receive permission to use the logo and receive frequent communication regarding resources.
