

## Hosting a Messy Church USA Regional Training Event

The **Get Started** in Messy Church is our foundational training event that is highly recommended for any church planning to start a Messy Church. The training is led by Messy Church USA certified trainers.

The **Get Started** training is both theoretical and practical. Each team will learn vital tools to strongly begin their local Messy Church. They will discover how the five foundational values and four components are used as building blocks to contextualize their own Messy Church. They will participate in a 'Mini-Messy Church' that pulls both the theoretical and practical together. In addition, they will have the opportunity to dialogue with their team about specific challenges and strengths facing their distinctive context.

### Hosting a **Get Started** Regional Event

We require a minimum of five registered churches (excluding the host church) to hold a Get Started training. Our host church receives free registration for their team to attend the training.

#### Host Church Responsibilities

- Provide space for training
- Provide projector with HDMI connector
- Provide sound system
- Provide Lunch, snacks and drink for participants
- Provides publicity for local churches and district and conference level
- Host church responsible for trainer travel reimbursement (negotiated prior to event with Messy Church USA)

#### MC USA Responsibilities:

- Provide Registration and Payment for event via the Messy Church USA website
- Provide all materials needed for the registrants
- Will advertise on Messy Church USA event page after received material from host church
- Provide examples of publicity for training
